Software Developer Intern

WHO AM I?

Third-year engineering student majoring in Software. Finding an opportunity to apply and expand my knowledge. Highly motivated and ready learn new things, with experience in the service industry and a passion for all things tech.

EXPERIENCE

2020 – Now
part time

Software Developer Intership

Niwa

My work experience involved developing a geographic information system (GIS). This used the Mapserver framework to create a web map service (WMS) to render data stored on a PostGIS database.

postgres / mapserver / linux

2018 – 2019

Bartender, Barista, Mixologist, Maitre D'

St. Johns Bar and Eatery

I furthered my communication skills from serving the upmarket clientele. This included supervising functions for ministers of parliament and their cabinets. We regularly hosted the staff for Xero and TradeMe.

conflict resolution / health and safety / customer service

2012 – 2018

Bartender, Barista, Kitchenhand

Mac's Brewery

This was my first job. I started with no work experience and steadily progressed through the company. I learnt valuable communication, event coordination and conflict resolution skills.

time management / communication
